OBJECTIVE

Software Engineering student at the **Arab Academy for Science, Technology and Maritime Transport** seeking a **Software Testing** opportunity. Having a strong technical foundation in **STLC/SDLC methodologies**, **automated testing frameworks (TestNG, Cucumber)**, and **SQL**. Eager to apply practical experience from the **DEPI scholarship** and **Sprints X Microsoft Summer Camp** to contribute to real-world software projects

EDUCATION

Bachelor of Computer Science - Software Engineering 2023 – 2027
Arab Academy for Science, Technology and Maritime Transport (AASTMT)

High School Certificate 2023
Nozha Language School

PROFESSIONAL EXPERIENCE

Digital Egypt Pioneers Initiative - DEPI 06/2025 – 12/2025
Software Tester Trainee

Selected for the **Digital Egypt Pioneers Initiative (DEPI)**, a scholarship by Egypt's Ministry of Communications and Information Technology. Specialized in Software Testing with hands-on experience in

- Designed and executed **manual test cases** for web applications
- Performed **API testing** using Postman
- Developed and maintained **automation testing scripts** using **Selenium WebDriver**
- Logged and tracked defects using **JIRA**
- Applied **ISTQB testing concepts** and SDLC/STLC methodologies

TECHNICAL SKILLS

- **Software Testing & QA:** Manual Testing, Automation Testing, Regression Testing, Functional Testing, API Testing, Test Case Design, Test Execution, and Defect Reporting.
- **Automation Tools:** Selenium WebDriver, TestNG, and Cucumber.
- **API Testing Tools:** Postman.
- **Programming Languages:** Java, Python, and C++.
- **Databases:** SQL.
- **Testing Management :** JIRA,Microsoft Excel
- **Core Concepts:** Software Development Life Cycle (SDLC), Software Testing Life Cycle (STLC), Agile Methodologies, ISTQB Fundamentals, Object-Oriented Programming (OOP), and Data Structures.

PROJECTS

Seoudi Supermarket Testing Project

- **Executed end-to-end testing** for the Seoudi Supermarket web platform, ensuring seamless user journeys from product selection to checkout.
- **Developed and executed comprehensive test cases** using **Manual Testing** techniques to validate core business requirements.
- **Built an Automation Testing framework** using **Selenium WebDriver**, **TestNG**, and **Cucumber** (BDD) to automate repetitive regression suites.
- **Performed API Testing** using **Postman** to verify backend endpoints and data integrity.
- **Managed the defect lifecycle** by identifying, logging, and tracking software bugs using **JIRA** to ensure high-quality releases.

Sprints X Microsoft Summer Camp – Graduation Project

- **Applied Software Quality Assurance (SQA) methodologies** to evaluate project requirements and ensure alignment with business goals.
- **Designed and executed manual test cases** to validate system functionality and user experience.
- **Managed the full defect lifecycle** using **JIRA**, including bug reporting, prioritization, and tracking through resolution.
- **Collaborated in an Agile-based environment**, participating in hands-on training for real-world project development.

Smart Transport App, Software Engineering Project

- **Conducted Software Requirements Analysis (SRA)** to define functional and non-functional specifications for the platform.
- **Architected system workflows through UML Modeling**, including Use Case, Activity, Sequence, State Machine, and Class Diagrams, to visualize system behavior and structure.
- **Performed Threat Modeling** by developing **Misuse Case Diagrams** to identify potential system vulnerabilities and ensure user safety.

CERTIFICATES

Sprints X Microsoft Summer Camp: summer program focused on software engineering and quality assurance. The camp included hands-on training in software testing, Agile practices, and real-world project development.

Digital Egypt Pioneers Initiative (DEPI)-Testing Track: A national scholarship sponsored by the Ministry of Communications and Information Technology (MCIT), within the Software Testing track. Gained strong hands-on experience in software quality assurance, both manual and automated, and learned industry best practices.

SOFT SKILLS

- | | |
|--------------------|------------------------------|
| • Problem Solving | • Teamwork and Communication |
| • Active Listening | • Have the passion to learn |

LANGUAGES

English – Intermediate (B1)	Arabic – Native
